

# SHARE WITH OSCAR

## CIRCLE LESS, FIND MORE

## Junior software developer

We are looking for an experienced and motivated junior software developer to join our growing team! You will learn from a highly experienced team and be involved in the development of exciting software applications and products. If you're interested in developing technologies that will disrupt industries, then this job is for you.

### Your role:

You will be involved in the development of both software applications as well as hardware products. You will work closely with our technical team, our creative designers and collaborate with other parts of the business to help us disrupt and revolutionise the way people park their cars!

You must have a willingness to learn, a knack for experimentation and an ability to collaborate with other parts of the business.

### Responsibilities

- iOS app development and bug fixes
- Serverlet development, management and maintenance
- Supporting research & development activities

### Requirements

- Minimum 6 months – but interested a more permanent role
- Ability to work in Australia

Share with Oscar is pioneering Australia's first on-demand peer-to-peer parking app – the sharing of underutilised assets! We've been touted as the Airbnb and Uber of parking!

[www.sharewithoscar.com](http://www.sharewithoscar.com)

A successful candidate will ideally have knowledge of:

- iOS development
- Development in Python
- Cloud hosted systems; deployment on AWS

Other skills that would also be highly considered include:

- Android / Java development
- Server side API gateway
- E-commerce application development
- IoT sensor and device development
- Embedded software development in C

To apply, please email your CV and cover letter to [louise@sharewithoscar.com](mailto:louise@sharewithoscar.com)

Louise Chen  
Share with Oscar Pty Ltd  
19/191 Parramatta Rd  
Auburn, NSW, 2144

Dear Louise,

Re: Junior software developer position

I am writing to apply for the junior software developer position at Share with Oscar Pty Ltd which was advertised on LinkedIn on November 5th 2016.

I am a well skilled and experience cross platform Hybrid App developer in E-commerce. I have developed and delivered products to web, mobile and desktop in the past six years for Synctic Pty Ltd. Furthermore, I am also a acting DevOps for server side (gateway) operating on multiple IaaS platforms including AWS, Microsoft Azure and Google Cloud.

My current college study in electrical engineering is focusing on embedded applications such as Internet of Things.

I am keen to have a opportunity to discuss with you more about this developer position, and how my skills and experiences to benefit Share with Oscar.

Thank you for considering my application, I look forward to hearing from you.

Sincerely yours,

Xu Lian
